POLGÁRMESTERÉTŐL

TABLE 1

1. **Identify the problem** (What is the problem? What is the goal?)

2. **Formulate a hypothesis** (What do you think is the cause of the problem?)

3. **Design an experiment** (How can you test your hypothesis?)

4. **Conduct the experiment** (What happens when you test your hypothesis?)

5. **Analyze the results** (What do the results tell you about your hypothesis?)

6. **Draw a conclusion** (What is the final outcome of the experiment?)

7. **Communicate the results** (How can you share your findings with others?)

8. **Evaluate the process** (How well did the experiment go? What can be learned from the experience?)

9. **Reflect on the learning** (What have you learned from this experience?)

10. **Apply the knowledge** (How can you use what you have learned in other situations?)
