Dear Visitor,

It's my pleasure to have you browsing our web site with interest. On behalf of local government may I welcome you to home page of city of Polgár, having remarkable

history in the past, located near Tisza river.

The newly built M3 motorway, being one of the most important route of Hungary, crossing it in East - West direction, now opens to you Polgár, as a city of great development potentials in economic, cultural and a tourist travel business.

To date this city, located at the crossing point of important traffic routes, has been known to many investors and business man from remote countries. The brand new motorway has opened this Eastern region's as a gateway for those looking for new business opportunities. Economic life is sparkling here today, luckily accompanied by enthusiasm of local dwellers' commitment toward renewal and development. We hope that the renewed website may also contribute to our aim to turn Polgár into known, recognized and available place throughout the country and beyond its borders.

The modern telecommunication makes it possible for us to present more important facts and details from our city's past and present. Thank to this we can also introduce our ideas and plans to our future to be partners about the next period to come. We regard the information as a common resource, being one of the most significant securities of the partnership and the development. Beyond its socio-economic significance the openness is a crucial issue for the publicity and overall progress too.

Our aim, that website Polgár city has delivered authentic and state-of-the-date information to the citizens about the city's public affairs. It should correspond about everyday business of the organizations, run by the local government. We need to inform our dwellers about life of civil organizations, tourism opportunities, economic changes and cases, playing important role within Polgár.

We'd like to consider our web site as an important tool, linking us to local citizens during the everyday public life. We wish to regard it also as a new device, working as an interactive tool, activating and motivating local public opinion to give feed back and show mirror, suggest proposals and give opinion to municipal work.

The management of the city and its dwellers look forward to welcome and host visitors, who are either interested in endless beauty and treasures of our land, or
